EDUCATION

National University of Singapore
Ph.D. student

08/2024 – Present
Singapore

- Pursuing a **Ph.D. in Computer Science** under the supervision of Prof. XIAO Xiaokui 🌐 [Homepage](#).

Tsinghua University

09/2020 – 06/2024

Double Bachelor's Degree in Science and Engineering

Beijing, China

- B.Sc. in **Mathematics and Physics** & B.Eng. in **Civil Engineering and Systems**.
- GPA: **3.85/4.00**.
- Academic Awards:
 - Tsinghua University Overall Excellence Scholarship (Top 20%, 2023);
 - Tsinghua University Academic Excellence Scholarship (Top 17%, 2023);
 - Tsinghua University Overall Excellence Scholarship (Top 20%, 2022);
 - Tsinghua University Academic Excellence Scholarship (Top 17%, 2022).

RESEARCH EXPERIENCE

Graph Synthesis with Differential Privacy
School of Computing, National University of Singapore

01/2025 – Present
Singapore

- Supervised by Prof. XIAO Xiaokui.
- Expected Outcome: We aim to develop an efficient differentially private graph synthesis algorithm.

Federated Learning Contribution Estimation [1]
Database Laboratory, Tsinghua University

09/2022 – 04/2024
Beijing, China

- Supervised by Prof. LI Guoliang 🌐 [Homepage](#).
- Key Contributions:
 - An in-depth survey. Examined **29** distinct contribution estimation methods and dissected the problem into three key aspects: data utility metrics, contribution estimation schemes, and optimization techniques.
 - A comprehensive evaluation. Conducted an extensive evaluation of **13** state-of-the-art contribution estimation methods, comparing their effectiveness, robustness, and efficiency, which encompasses 4 datasets, 2 data distributions, and 4 adverse behaviors.
 - An extensive set of observations and findings. Identified the advantages and limitations of different data utility metrics, contribution estimation schemes and optimization techniques across various scenarios, as well as the summarized findings.
 - An extensible testing framework. Developed a flexible testing framework capable of accommodating multiple implemented methods, which serves as a potential benchmark for evaluating performance in this field.

PROFESSIONAL SKILLS

- Language: English (Professional Working Proficiency), Chinese (Native).
- Technical Skills: Python (PyTorch, Sklearn, Seaborn), C++ (C), MATLAB, SQL; $\text{\LaTeX}$, Drawio (a diagram maker); Git (Github), Overleaf.
